

Cross curricular opportunities often arise during P.E....

Here are some examples:

In MATHS children can work out timings and distances and we are all aiming to walk the GOLDEN MILE

Each week we count up our house points to congratulate the winning house team (RED, GREEN or YELLOW) and we try to demonstrate the Spirit of the Games values in all we do.

In SCIENCE children look at the effect of exercise on our heart rate and keeping healthy is a priority

In ENGLISH we use our reporting skills to write about events we have enjoyed and often tell others about our achievements in Assembly.
